## Advancing Sustainability: Turning Data into Action and Progress into Results

Hello everyone,  
Welcome to our ESG Quarterly Update.

During the second quarter of 2026, we continued to advance our sustainability initiatives and achieved several key milestones, including the completion of the first draft of the 2025 Sustainability Report and our ESG information disclosure. Let's take a look at this quarter's highlights.

# Highlight 1: 2025 Sustainability Report Enters the Finalization Stage

From data consolidation and content development to cross-functional review, the 2025 Sustainability Report has reached several key milestones and officially entered the finalization stage, laying the groundwork for its upcoming publication.

## April

### **Data Verification**

Initiated the second-round data verification process, completing ESG data collection, supplementation, and validation across all subsidiaries to ensure the accuracy and completeness of disclosed information.

## May

### **Content Development**

Completed the major sections of the Sustainability Report, continued cross-functional content review and revisions, and finalized both the English and Chinese draft manuscripts.

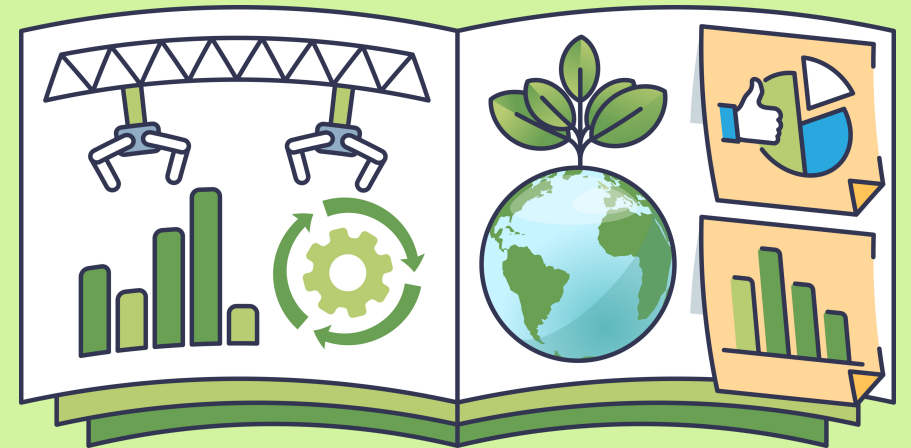

# Highlight 1: 2025 Sustainability Report Enters the Finalization Stage

From data consolidation and content development to cross-functional review, the 2025 Sustainability Report has reached several key milestones and officially entered the finalization stage, laying the groundwork for its upcoming publication.

**June**

## **Finalization**

Completed the first draft of the Sustainability Report and initiated cross-functional review, content validation, and design layout in preparation for review by the Sustainability Committee and the Board of Directors.

**02**

## **Highlight 2: ESG Information Disclosure Completed**

**Enhancing Transparency, Strengthening Corporate Governance**

In Q2, we successfully completed the 2025 ESG information disclosure in compliance with regulatory requirements. By ensuring accurate, complete, and transparent reporting, we continue to strengthen stakeholder trust and demonstrate our commitment to strong corporate governance and sustainable business practices.

# **Highlight 3: Fostering a Better Workplace**

## **Creating a Healthy and Supportive Work Environment**

Throughout the quarter, we continued to promote employee well-being through visually impaired massage services and wellness initiatives, helping employees maintain a healthy work-life balance.

By supporting employment opportunities for visually impaired professionals, we also reinforced our commitment to social responsibility while fostering a more inclusive and caring workplace.

# Highlight 4: Officially Obtained the Greenhouse Gas Verification Statement

## A Major Milestone in Our Low-Carbon Journey

In Q2, LH and LES officially obtained the 2025 Greenhouse Gas Verification Statement after successfully completing independent third-party verification. This milestone enhances the credibility and transparency of our environmental data while reinforcing our commitment to carbon management and climate governance.

# What's Next

In Q3 2026, we will continue advancing our sustainability initiatives with a focus on transparency, governance, and continuous improvement.

- Finalize the 2025 Sustainability Report.
- Submit the report to the Sustainability Committee for review.
- Obtain Board approval and officially publish the 2025 Sustainability Report.
- Begin planning for the 2026 Group Greenhouse Gas Inventory.
